FW 26-27

CUOREMANI

The highest level of focus is always required to get the best out of textiles.

*Attention, care, and years of experience are the simple ingredients in a formula that consistently delivers excellence and goes beyond every limit.
Each process has its own complexity, its own story... and it is here, in just a few millimetres of fabric, that TOPP Italia manages to make the difference.
With heart — and with hands.*

QUALITY

Our work always starts with research: we carefully select high-quality materials and fabrics. These are crafted with artisanal mastery in our 100% Italian workshop, by skilled and passionate hands. We often use hand-made techniques, which make our accessories even more unique and valuable.

INNOVATION

Every collection is the result of creativity and renewal. We take inspiration from seasonal trends, reinterpreting them through our own style. The result is contemporary products, in tune with the evolution of fashion yet true to our identity.

CUSTOMIZATION

In recent years, we have successfully expanded our contract manufacturing services. We work with your fabrics and materials to create unique, tailor-made pieces designed around your needs. Topp Italia items are made to be one-of-a-kind, always elegant, and often high-performing.

SUSTAINABILITY

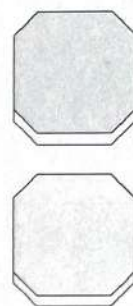

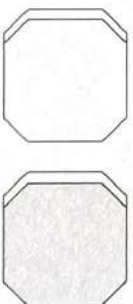

Sustainability is a core value for us. Every day we strive to become more eco-friendly: through small daily actions in the company and by choosing sustainable processes and materials. We seek out and include recycled fabrics and eco-friendly materials in our collections, without ever compromising on quality.

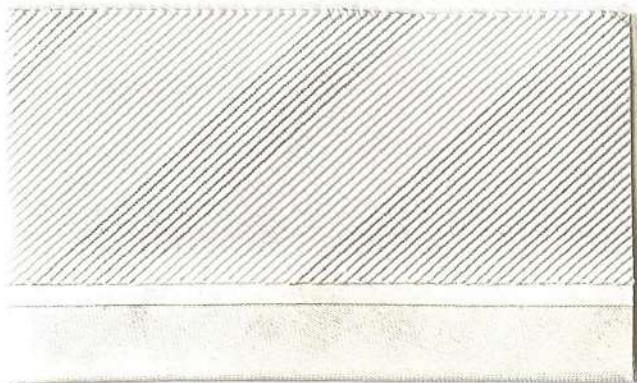

HARMONY

Harmony is the guiding thread of our work. From human relationships within our team and with clients, to our creations—where fabrics and materials, even very different ones, come together in perfect balance.

*Details make perfection and perfection is not a detail.
